Important to You. Read Every Word Carefully.

REDUCED PRICES. Never before have I had so large and fine a stock of choice, selected seeds, and never before have I been able to give such liberal discounts and splendid premiums. Please tell your friends, and you will do both them and me a great favor.

I DELIVER FREE to your nearest Postoffice, (or Express Office) **EVERYTHING** offered in this Catalog.

WHAT I INTEND TO DO. 1st. Furnish the best home-grown tested seeds at a reasonable price. 2nd. Furnish large-size, well-filled packets. 3rd. Add many choice extras. 4th. Give you a liberal Discount or Premium on every order. 5th. Fill all orders promptly—boxing same securely and send **EVERYTHING** prepaid.

I GUARANTEE everything sent out by me to reach you in good condition, and will replace any that may be lost or injured on the way. I guarantee absolute satisfaction in all I offer, in so far that, should any prove otherwise, I will cheerfully refill order for the same gratis—thus I warrant everything but the crop, and by this sweeping guarantee make the purchase of my seeds by mail the safest investment possible.

TERMS. Remittances must accompany all orders. I keep no accounts. I send no seeds on credit or commission.  Order Sheet is in back of Catalog.

REMIT the most convenient way—Postoffice or Ex-

press Order, Bank Draft or Registered Letter. I will take the risk by either of these good methods; letters very seldom get lost. You may select extra packets to pay cost of order or register. Postage-stamps taken when not convenient to remit otherwise.

ORDER EARLY. Please send in your orders early as possible—before the rush, while my stock is complete. I will have more time then, and you will be **SURE** to have the seeds on hand when needed.

PLEASE HAND out all extra Catalogs and Circulars to friends needing seeds, and **BE SURE** and mention it in your order, and I will remember your kindness.

VALUABLE EXTRAS FREE. A liberal number always added free to orders.  A dollar order will have **NOT LESS** than 5 to 8 free packets. Larger orders many more. Show this to your friends who buy elsewhere and get but one or two extras—or none at all.

SPECIAL NOTICE. If any of my customers have purchased seeds of me that did not give satisfaction, will kindly mention it when ordering this season. I will be glad to give them anything they wish of equal value. This is a standing offer. It is my sincere wish to please in all cases, and I wish my friends to feel free to write if anything should have proved unreliable. For I will be only too glad to make it right.

FRIENDS, I am a farmer's son and followed the plow. I grew up among farmers and gardeners, and very early learned that high grade, selected seeds were absolutely necessary for the best success. I have followed seed-growing and seed-selling for 25 years, and think I know my business. I am in position to fill your orders promptly and with care. I will give you **GOOD** measure in **BEST** seeds. I have the **VERY BEST** mailing and shipping facilities. I am positive I can give you far better discounts, premiums, and more "extras" than you would get elsewhere. There is a reason for this. Your money does not go to pay for bulky catalogs, city clerks, and costly advertising.  I am **NOT** a "city seedsman." I am situated on the banks of the beautiful Hudson river—among farmers and gardeners. My business shows that my seeds, and efforts to please, have both been a success, and are appreciated by those who know what good seeds are.

Money Made, or Useful Premiums Earned Easily and Quickly.

Few indeed (who have not tried it) have any idea how easy, pleasant and profitable it is to get up clubs for my seeds. Your friends and neighbors buy seeds every year of some one, and they will be only too glad to give you their orders if you will but ask them.

Many Ladies desire to earn "pin money," and there never was an easier, pleasant, or surer way to obtain plenty of it than this. Thousands send me large clubs every year, and you can do as well. All who try are absolutely sure of earning **GOOD WAGES**—or securing useful premiums without cost.

I wish my seeds introduced, and may never again make such liberal offers. Now is the time to get up your club. Please take my Catalog and circulars, and begin at once to take orders. I am sure your success will surprise you.

Remember every dollar you remit buys \$1.50 worth of ANYTHING in this Catalog. This liberal discount—greater than is given by any other seedsman, covers **EVERYTHING** offered—Seeds in packets, Potatoes, Cinnamon Vines, etc.—there are no exceptions. Please tell all your friends, for no one can do as well elsewhere.

This great discount is made as an advertising experiment **THIS YEAR**. If my customers encourage my liberality, by ordering early, getting up clubs, and especially by telling their neighbors, etc., I will appreciate it greatly, and can continue it in the future.

Premiums. Many club-raisers prefer premiums; my terms are just as liberal here. I give a splendid Camera, Garden Seed Drill, Solid Gold Fountain Pen—or a valuable, engraved Watch—free for a \$3.00 order.

Full description of these and other real bargains are on following pages.

BOYS AND GIRLS are among my most successful club-raisers. They always do well if they try. I sent them over 1,000 of my beautiful watches last year, besides many other premiums, to their great delight. Parents everywhere should encourage their children to get up clubs, for nothing could benefit them more than such practical business lessons.

The watch is really a wonder. I carry one myself, and the greatest wonder of all is how I can send so handsome a watch for a \$3.00 order. It is done to advertise my seeds, of course, and my customers get the benefit. I had rather give it to my friends than pay it to the newspapers. Do not miss this great chance. I will look for a large club from you—but send a club anyway, no matter how small. My packets are so large and well filled, and price so low for high-grade seeds, that your success must be certain.

 It is especially easy to get orders for Packet Seeds—Potatoes, and Cinnamon Vines; always show these pages, and you are quite sure of good sized orders.

I ALWAYS ADD many new and valuable seeds gratis to orders, fill them promptly—deliver everything **PREPAID**, guarantee safe arrival and entire satisfaction. (They tell me no other seedsman gives away even half as many free "extras" with orders.) Tell this to your customers. See elsewhere for further particulars.

If you wish more catalogs and circulars to distribute I will send them gladly, and help you all I can; write for all you can use. I will look for your club; please do not disappoint me. With best wishes for your success I am Sincerely Yours, A. T. COOK.

Etc. Read Everything on This Page.

QUESTIONS ANSWERED.

Friends, I am sure this Catalog contains all particulars and full explanations of everything pertaining to my seeds, premiums, getting up clubs, etc. Read following remarks—also on opposite page, middle page, order sheet, and other places,—and you can make no mistake, and no time need be lost in writing, so go right ahead and not delay getting up your club. If however you find it necessary to write, be sure and send a self-addressed, stamped envelope—and write plainly with ink so I may give it my prompt, personal attention during the busy season.

THE BEST IN THE WORLD. I can only furnish the varieties of seeds, fruit plants, etc., offered in this catalog. Extensive trials by myself in an experience of over 25 years, and also by the most critical gardeners in every section of the country prove them to be the very best that grow. I am a Specialist, and do not catalog the hundreds of worthless sorts. I had rather have the confidence of my friends. By having a short, select list, I am able to confine it solely to those of the highest excellence and give them the care required. All seeds are put up in extra large packets only. Friends I assure you I never intend to be a careless Seedsmen.

REMITTANCE MUST accompany each and every order. I keep no books or bookkeeper, I don't do business that way. I NEVER sell on credit or commission or C. O. D. Don't ask it. It's an Old Fogy plan anyway. I could not give you half as good bargains as I do if I went to this useless expense. I never consign seeds to any one, therefore never have any old seeds returned. My seeds are always fresh and new, and are marvellously cheap for the prices asked. If you have no money get a friend to advance some a few days.

ORDERS FILLED PROMPTLY. Orders for seeds, premiums, etc., are always filled with the utmost promptness, but are sometimes delayed a few days in the mails. Don't be in too much haste to complain. Wait a little, and before you write ask your Postmaster to look well for your package, as they are often too large for the boxes and may be laid one side and overlooked. When you do write (which is seldom necessary) state what you ordered and when: also amount and in what way you remitted, so it can be easily traced.

LITTLE THINGS. Sign your name and address to every order. I have orders I cannot fill because I cannot guess where they go. Write plainly with ink, it may save mistakes. Don't cut up your Catalog. They cost money. Give the extra one to your friend and benefit him.

NO ORDER filled for less than the quantity stated. All packets are extra large, and have full directions. I have no half size packets. No order for potatoes filled for less than \$1.00—or of asparagus plants for less than 50¢—as this much is needed for a good bed. I sell eggs only—no birds. I keep the very choicest for breeders.

ALL CLUB ORDERS are sent direct to Agents. Put your name only on the order to save mistakes. (Should you wish part mailed to distant Postoffices, write such order, name and address on a SEPARATE SHEET.) \$3.00 clubs and under for premiums must be in one order. Larger clubs may be sent in two orders if necessary—but be sure and say in the first order that you are working for a premium. A HINT. Many Club Agents offer to take eggs, etc. in payment when parties have no money—and thus largely increase their orders. These are sold for cash at any grocery store. I deliver everything prepaid except as stated.

MISTAKES. With all my care I sometimes make mistakes; so does every one. I earnestly desire to correct every one here in this life—for I can never return to do it. If everything is not right please dome the kindness to write and explain—pleasantly if you can, but write anyway. Everything I send out is covered by three substantial warrants as stated on opposite page. You run no risk when dealing with me.

TO BOYS AND GIRLS. Don't think you cannot get up a club. It is easy. Read Johnny Lent's letter on another page. He is only 9 years old, and he got his \$6.00 club in one day, and got two splendid watches for his trouble. Begin to-day. You are as smart as the rest. Thousands of boys and girls have obtained valuable premiums—but the business lessons learned were more valuable still. All needed instructions are in this catalog. Do your best, and you will surely succeed beyond your fondest hopes.

IMPORTANT TO ALL—especially Club-raisers. Three packets for 25 cts. may be ordered of any 10c variety—even when a premium or regular discount is taken. Club Agents—mention this when taking orders.

TO MY CANADA CUSTOMERS. I have a large lot of Canada customers who have found my extremely early, hardy varieties admirably suited to their short seasons,—producing the most bountiful crops. I send everything by mail or express fully prepaid, but do not pay duty which is sometimes required on some of the goods. This however if any—will be but little. I always add free, enough Premiums and Extras to pay this several times over. Remit by Money Order payable at Poughkeepsie, N. Y.—or by Registered Letter. Name Express Office if convenient. Canada currency or stamps taken same as U. S.

TO LADY CLUB AGENTS.

Ladies succeed the best of all. This year club raising will be far easier than ever, for I have added Fruit Plants and Eggs for Hatching. Better still as a special favor I make my flower seed packets about 3 times the size other Seedsmen do. Nothing like them ever seen before. All are extra high grade. Everybody will want them. You have no idea how easy clubs are raised. Read Mrs. Stetsman's letter on page 6. I could fill this book with letters from delighted patrons.

ON EVERYTHING. My Premiums or Discounts are ON EVERYTHING OFFERED. No other Seedsmen does this. No other Seedsmen gives as liberal premiums or as big discounts—or as large packets—or as many Novelties and extras free as I do. THIS is my way of advertising, and I know my friends who get the benefit will help me—as they always have in the past.

IF YOU CANNOT get up a club, please be kind enough to show this to some one who would like an elegant, Gold or Silver Watch, Lovely Dress Pattern, Camera, Sewing Machine, Bicycle, Organ, (or a pocket full of "pin money")—without costing one cent of money. I send everything prepaid and guarantee absolute satisfaction. The Premiums are all ready and waiting for your orders.

Specialties, Novelties, and Improved Varieties.

The following pages contain **THE CREAM** of all the varieties known to the American Seed Trade. They have been mostly grown and fully tested by me—as well as other critical gardeners in all sections of the country, and found to possess great value and merit.

I do not indulge in extravagant illustrations and descriptions, but desire above all that my catalog be plain, truthful, and honest; that my kind customers may not be deceived.

New Domestic Coffee Seed.

This makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, deep brown color, of old Java. Thousands pronounce it as good as the best store coffee. It is the poor man's friend.

It is the hardiest, easiest raised and most productive of any plant I ever saw. While growing it is a perfect sight to behold; fruits from the ground up, and on the limbs in every direction, the pods touching each other. See cut which does not exaggerate its wonderful productiveness.

Thousands suffer untold injury from store coffee. Better grow the new kind at one-tenth its cost, and save your health—and \$10, to \$20, every year.

In the south two crops can be raised in a season. It is as easily raised as corn or beans; is cultivated in the same way; does well on all soils.

You can raise your own coffee for one cent

a pound. Don't fail to plant a liberal quantity.

Ground and fed to milch cows it makes an abundance of the richest and yellowest butter ever seen. It makes a valuable and cheap poultry food—and is a remarkable egg producer. The Exp. Stations report that it has MORE THAN DOUBLE the feeding value of either corn or wheat, (and also recommend it very highly for coffee.) As a renovator of worn out land there is not a plant in existence that will compare with it.

Full directions on every packet. Prepare like other coffee and you will be surprised and delighted to find how good it is. My seed is GENUINE and true; extra early, and will be sure to ripen even in Canada. It is quite distinct from the late and worthless soya bean that some seedsmen are offering for coffee berry. Buy at Headquarters and avoid disappointment. I am glad to be able to make the following extremely low prices.

Price of Coffee Seed. Large packet 10 cts.; 3 for 25 cts.; 7 for 50 cts.; 15 for \$1.00; all prepaid.

I regret I have only room for the following among HUNDREDS of testimonials.

T. Greiner, the noted Author says:—I had rather use the NEW DOMESTIC COFFEE than the real article. It is very pleasing to my taste, and contains true nourishment. I will to use it right along.

B. B. Draughan, Monroe Co. Ala. says:—I am just delighted with your coffee, and send you \$1.00 for more. It is indeed wonderful.

R. E. Green, Mer. Boise Irrigation Co. of Idaho writes:—I am much pleased with your Domestic Coffee. It is immeasurably superior to the average coffee that people use. It makes a drink fit at least for the lesser Gods. I enclose order for 200 packets.

The Christian Advocate, says:—It is one of the most wonderful discoveries of the age; and comes very near the genuine.

A. I. Root, Publ. says:—The new coffee is a success, and preferable to the real coffee, because I think it more healthful. They will grow on any soil, and make a tremendous yield.

Miss Sarah Wilder, Genesee Co. Mich. writes:—The Coffee is extra good—better than I can buy here. I enclose another order for seeds, and watch as premium.

A. Wells, Washington Co. writes:—It makes fine coffee. I raised 2 crops last summer. I will plant a good lot this season.

Margaret Clark, Noble Co. Ohio, writes:—It is the nearest the genuine coffee of anything I ever tried, and is an enormous yield. I am more than pleased with it. I have fooled many a visitor who supposed they were drinking real coffee.

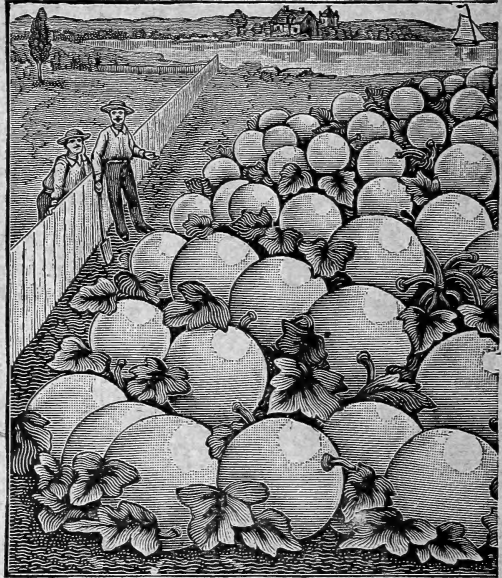

Dr. J. M. Ashby, McLennan Co. Tex. writes:—Your new coffee is a great success. I can truthfully say it is better than the best coffee sold here at 30 cts. per lb. It is beyond description. Farmers flocked to see it and clamored for some seed.

BE SURE AND READ THE FOLLOWING FROM

PROF. W. H. MORSE, M. D., F. B. S. Sc.

Mr. A. T. COOK, DEAR SIR:—This is to certify that your new Domestic Coffee, upon being tested in the laboratory, evinces a highly nutritious character, a rich flavor, and a remarkably pleasant taste when roasted and pulverized, and treated for a beverage. It comes to the palate as a satisfying drink, fitted to sustain life. When carefully infused and drank hot, it produces an exhilarant effect, but does not fatigue the nerves or cause an unnatural influx of blood to the brain. The new Domestic Coffee Seed should command large favor.

WILLARD H. MORSE, Consulting Chemist.
The Jamatological Bureau, Westfield, N. J. March 9 1899.

New Vegetable Peaches.

I am proud to have been the introducer of this very popular and desirable little fruit that I gave to the public several years ago. They are the most beautiful of vegetable, growing on vines same as melons, and resemble oranges in color, shape, and size. The flesh is snow-white and makes handsome and delicious preserves and sweet pickles; is excellent fried as egg plant, and for mangoes they have no equal.

There is nothing like them under the sun. Extremely early, of the easiest culture, and a wonderful yielder, covering the ground with its golden fruit, calling forth words of astonishment and admiration. They grow from the seed in 80 days. Do not miss this remarkable Novelty for I am sure you will be much pleased with it. Directions for growing—use of fruit, etc. on each pkt.

Packet 10 cts. 3 for 25 cts. 7 for 50 cts.

W. J. Robinson, Madison Co. Tenn. writes:—The Vegetable Peach is all you claim. Mine ripened in 70 days. I want to take orders.

Andrew L. George, Maury Tex. says:—The Vegetable Peaches were a surprise and a pleasure, and yielded enormously.

L. N. Willoughby, Cheshire Co. N. H. writes:—Your Vegetable Peach "took the cake" and attracted more attention than anything else shown at our Farmers Festival. Your seeds yield enormously.

Mrs. J. F. Flagg, Delaware Co. Pa. says:—The Vegetable Peaches did well, and produced a grand crop. The preserves are delicious.

Mrs. B. F. Moore, N. Y. says:—They are better than peaches for pies and preserves.

W. W. Chase, Wash. Co. N. Y. writes:—Your Vegetable Peaches were just as you recommended. They are wonderful yielders, and make fine preserves, sweet pickles, and pies.

S. A. Gakey, Hillsboro Co. N. H. writes:—Your Vegetable Peaches are a real wonder. Your seeds are the best I ever bought.

G. O. Street, Berkshire Co. Mass. writes:—Your Vegetable Peaches are a wonder and no mistake. They deserve the highest praise.

New Golden Eyed Wax Bush Beans.

THE "NE PLUS ULTRA" OF ALL.

Never in the history of bean culture has so valuable a variety been found as this Golden Wax Bean. If you have not planted it you do not know what the perfec-

tion of beans really is. The pods are long, brittle, and ENTIRELY STRINGLESS; of the richest golden wax color, and borne in the most marvelous profusion.

Its prodigious yielding qualities almost surpasses belief. Deliciously tender, rich and buttery. Unexcelled both as a snap bean and a shell bean for winter use. The plants are extra robust and hardy, grow very uniform, are absolutely healthy—the beans never have been known to rust or blight in the least. This fact alone is of the utmost value and places this famous bean far in advance of others. It stands unique and alone on the pinnacle of perfection. Whatever other good things you overlook in this catalog—do not miss planting these beans. Extra large packet, 10c. 3 for 25c.

Teach Children to Love Flowers.

Lovers of flowers are lovers of goodness and purity. Teach the boys as well as the girls: they will love their home better, and be more likely to shun the deadly, soul-destroying saloon, and other vices. Surround your cottage with flowers and vines. Let beautiful blossoms greet the eyes on every side, let their fragrance drift in the open doors and windows. It will pay an hundred fold. Flowers are little missionaries sent by God to teach us beauty, purity and innocence. Their influence is always good.

POWELL'S PROLIFIC POLE BEAN.

Thoroughly tested and proved to be the greatest Novelty ever introduced.  Read the testimonials and judge for yourself.

Silver Watch Given Away.

To the person growing the greatest number of Powell Beans by count on one plant from seed purchased of me—I will give free, an elegant

Solid Silver Watch beautifully engraved.

Also to Each of the **TEN PERSONS** (including the one above) growing the greatest number I will give free, a copy of the magnificent Painting—the world renowned Yosemite Valley 14 x 20 inches in size, and finished in art colors. This is one of the grandest of pictures; words utterly fail to describe its beauty. All reports to be sent in by Nov. 15.

Please tell this offer to your friends, and all club-raisers should surely mention it.

A SINGLE PICKING FROM ONE VINE

1/2 BUSHEL

POWELL'S PROLIFIC POLE BEAN.

This wonderful new variety, (first introduced by me,) originated in North Carolina—a few seeds were kindly sent me for trial by Prof. R. S. POWELL, who writes:—"They are an extraordinary snap bean, surpassing anything ever seen in our section—bearing profusely, and continuing until frost; they are very tender and palatable—six hills are

enough for a family."

I have found this bean a most rampant grower, one plant filling a pole with a mass of vines—densely loaded with luscious beans. I do not claim too much when I say they **Are more than twice as productive as any other** variety in existence. They are a sight worth seeing; almost a solid mass of pods from the bottom to top of the pole.

The handsome green pods average 8 or 9 beans to the pod, grow very uniform, about 6 inches long; perfectly stringless, very thick meated, tender, rich and buttery; possess an exquisite flavor when cooked—many calling it without exception the very best bean grown. It is a ate variety and continues in bearing so long it might well be called "everbearing." I on y offer it in packets.

Packet 10 cts. 3 for 25 cts. 7 for 50 cts. 15 for \$1.00.

BE SURE AND READ THE FOLLOWING.

 Mr. A. T. Cook, Your Powell Pole Beans are WONDERFULLY prolific. I never saw anything to compare with them.

From 16 hills we sold \$7.65 worth and had all we could eat. I verily believe the hills would have paid 75 cts. each, had all been sold. You cannot over-recommend this MONEY-MAKER. You should say in your catalog that an ordinary pole will not stand up under the load of beans. We had to prop up nearly every pole. This year will use heavy poles and trellis wire. A. J. Packard, Saco, Me.

S. E. Gwinn, Fayette Co., W. Va. writes:—From 6 vines of the Prolific Beans I sold 3 bushels—a majority of 9 cat from them liberally, and there is still a bushel on the vines. I never saw anything to compare with them. All your seeds done well.

Amy Thompson, Gallia Co. O. writes:—I raised 1800 Powell Beans on ONE VINE, which was the greatest yield I ever saw.

Mrs. C. E. Lissford, Kinards, S. C. writes:—From 5 vines we ate beans all summer, and then gathered over one-half gallon of seed. They were the admiration of the neighborhood. I have picked a full mess of beans for dinner, without changing position at the vine. Our summer was dry, but the vines continued green and bearing, while all other kinds of beans dried up; they are the best bean I ever saw grow, and I cannot command words to express the true value of such a garden treasure.

Mr. A. T. Cook, Your Powell beans were the grandest I ever saw.

FROM 5 HILLS WE PICKED 5 BUSHELS. They continued green and bearing long after all other beans were dead. I was greatly pleased with all the seeds, and especially so with the extras.

Mrs. J. J. Steward, Monongalia Co. W. Va.

World Famous Prizetaker Onion.

ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNEXCELLED EVEN BY THE BERMUDA VARIETIES.

This is without exception, the grandest variety of yellow globe onion grown for our American climate. It is the largest, handsomest, finest flavored, and in every way **THE BEST.** It is admittedly the **LARGEST** of all varieties; samples have been grown to the enormous weight of

Over 5 Pounds Each.

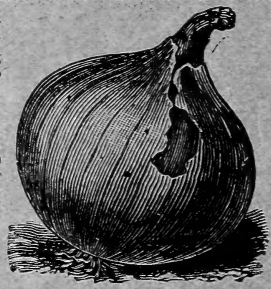

With good culture it produces wonderful crops everywhere; one reports "over 1200 bushels per acre;" another says "I grew 180 bushels on exactly one-sixth of an acre."

**Excels in Yield,
Excels in Size,
Excels in Quality,
Excels in Beauty.**

The Prizetaker is easily grown, ripens up hard and firm, is a good keeper, and always brings an extra price. summer, fall and winter. Some Faxons are pale yellow, while others are green, mottled, etc., in fact it is a curious admixture of many sizes, shapes and colors. This is a characteristic of the squash. The flesh is deep orange, cavity small. Nothing excels it for pies. I consider the Faxon decidedly the best of all squashes. Many who never could eat squashes before consider them delicious. Don't miss the Faxon. It cannot be praised too highly. Every customer will thank me for advising them to try it. Pkt. 10 cts. 3 for 25c.

"There's not a tint that paints the rose,
Or decks the lily fair,
Or streaks the humblest flower that grows,
But God has placed it there."

Early Snowball Cauliflower.

The earliest, the surest header, the best and most profitable of all cauliflowers. It is hardly necessary to

describe this variety at all, as its name has become a household word wherever this delicious vegetable is grown. Snowball cauliflower is the standard everywhere for superb quality with all market and private gardeners. It is a very compact grower, and is absolutely certain to form a good sized head when the conditions are right; is good the entire season, and is rapidly driving out the late sorts for fall use. Cauliflowers are easily raised and every family should grow a supply.

My seed is American grown and very choice. Packet 15 cts. 2 for 25 cts.

New Palmetto Asparagus.

BEST IN THE WORLD.

This new variety is the finest ever cultivated in this country. After six years trial in nearly all sections, it is pronounced by all to be far in advance of others. Growing side by side with Conover's Colossal, under exactly the same treatment the Palmetto proves to be at least a week earlier, the stalks are heavier, thicker, and of finer flavor. It is remarkably tender, rich and buttery when cooked, and very free from any tough or woody fiber. Every family should have a supply of this healthful and delicious vegetable, and I am sure all would, if it were known how easily and quickly it is grown.

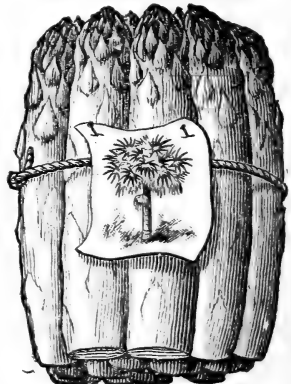

My seed is genuine "Palmetto," pure and true. Cultural directions on every packet.

The heads frequently attain twenty or thirty pounds in weight, and are always of the finest quality. For reliability of heading, this variety is, from long-continued selection, also remarkable. From each 100 plants set out, at least 98 large solid heads may confidently be expected. Pkt. 10 cts. 3 25c.

F. B. Hall, Bunker Hill, Maine writes:—I raised **10 tons** Short-stems from 1,500 plants. Every seed grows. This cabbage is best of all, and a wonderful seller.

Ellie Hull, Hightown, Va. says —The Extra Early Beet was the earliest and best I ever raised, and the cabbage was splendid.

C. H. Jenks, Buffalo, N. Y. writes:—Your Variegated Pop-corn beats the world. I grew 3 bushels from one packet of seed, and it took the first prize at the Union Fair.

John A. Rutledge, Pa. says:—Your Short-stem Cabbage was the best I ever grew. EVERY ONE made a nice head. The neighbors were surprised, and thought you made a mistake sending them so many extras. They said that every seed grew.

\$10.00 Given Away.

To the person growing the heaviest Short Stem Cabbage from my seed, I will give \$5.00 worth seeds, \$3.00 worth for next largest; and \$2.00 for third. Send in reports by Nov. 15.

SPECIAL TO CABBAGE GROWERS.

ALL of my cabbage seed is grown from Extra Selected, Solid, Perfect Heads, pure and true. This seed actually costs **THREE TIMES** as much to grow as that I could buy in the open market, but I am a practical Gardener myself and know the importance of **HIGH GRADE** seeds of all kinds—especially of cabbage, and intend to offer nothing but the best that can be produced.

Extra Early Beet.

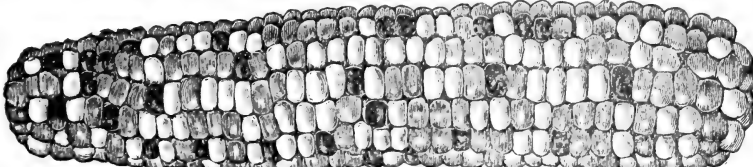

After a careful trial for several seasons, I am pleased to offer this new variety as one of almost inestimable value. How many of my Market Gardening friends believe that there is anywhere in existence, a nice, smooth garden beet, of deep red color, which will produce roots of suitable size for market **TEN DAYS** in advance of the old early sorts. Well friends this variety does that very thing; I was incredulous until I planted the seeds side by side; watching the growth almost daily, and saw a finely formed root develop on every plant of this new variety, fully ten days before other early kinds began to bottom. Price of Extra Early Beet; pkt. 10c : 3 for 25c 7 for 50 cts. 15 for \$1.00.

**Earliest and
Best Beet
in all
the World.**

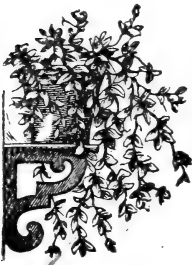

VARIETATED POP CORN. (Cut one-half natural size.)

Never before has such an attractive Pop Corn been offered as this superb variety, introduced by me. Indeed the ears are so handsome they are often used for parlor ornaments. It is very early, immensely productive, (3 to 6 ears on a stalk.) a splendid popper, bursting out very large, white as snow; tender, and delicious. The ears are of good size and beautifully variegated, red, white, and blue colors blended. It is without question the handsomest Pop Corn ever seen and will be sure to secure prizes at your Fair. Boys and Girls, as well as older ones, can get a nice income growing this corn for market as it sells at fancy prices.

Packet 10 cts. 3 for 25 cts. 7 for 50 cts.

ICE PLANT. (MESEMBRYANTHEMUM.)

A handsome and very curious plant, for hanging baskets, rock-work, vases, and for house plants; also fine for beds, edgings, etc. The leaves and stems appear as though covered with icy crystals that look peculiarly brilliant and glistening in the sunlight. It is a plant that is always admired. The flowers are white.

Cut shows the attractive appearance of Ice Plant in Pot Culture.

LARGE RED WETHERSFIELD ONION.

A time honored variety. Immense crops are annually grown for shipment. It is everywhere a large

yielder of fine, handsome, large onions, that find a ready sale in all markets. My seed is unsurpassed, and is grown from best selected bulbs.

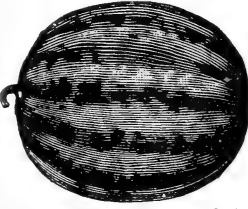

Beware of cheap onion seed that is often raised from

seeds and unsalable rubbish. Packet 5 cents.

New Golden Honey Watermelon.

A novelty of extraordinary merit, without doubt the best watermelon ever placed before the American public. It is a

very early melon. The flesh is of a deep rich golden color, and in delicious sweetness, and exquisite quality reminds one of honey. A crop of 20 acres grown especially for seed every melon was juicy, melting and delicious. It is of large size enormously pro-

ductive, flesh firm, solid and luscious beyond description. Many who fail in growing other melons are successful with this. Pkt. 20c. 3 for 50 cts.

From C. L. Newcomb, Bridgeton, Md. I was surprised and delighted at the large quantity of seeds, and they came the quickest of anything I ever ordered from same distance in my life.

From Seward Beard, Economy, Ind. We have used thy seeds for three or four years and will say that we never dealt with any seedsman that sent out such good seed, so neatly packed, and in such liberal quantity.

CORAL GEM BOUQUET PEPPER.

Is the finest of the small varieties. It is the prettiest thing out when grown in pots, and delight is every lover of the beautiful. Besides its great beauty, it serves the housekeeper in a most convenient way when pods are wanted for seasoning. In the open ground plants grows to a height of 24 to 30 inches, so densely set

with pods as to bend its branches down. It is the best of all for pepper sauce. Pkt. 10 cts., 3 for 25 c.

Cook's "Perfection" Parsnip.

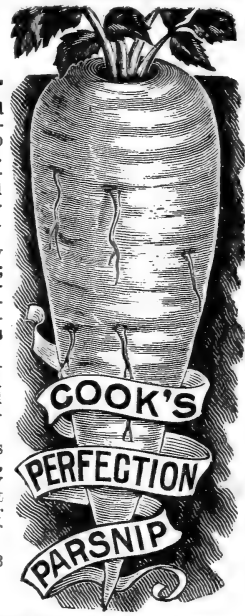

Rightly named, and without doubt the finest strain of Parsnip that can be produced. It is a wonderful improvement on the old sorts, and no one desiring the best should fail to grow it.

The roots are very smooth and handsome; tender, sugary, fine-grained and of most excellent quality. Customers are unanimous in praising it.

This is truly a delicious vegetable, and all who do not like the old poorer sorts are recommended to try this.

It produces enormous crops; and the short, thick roots are easily gathered. It is without question the best for home use, market, or exhibition purposes.

Large packet 10 cts. 3 for 25 cts.

POP CORN.—Cook's Improved Egyptian. I have been improving this corn, for many years, and now offer a strain of seed that cannot be surpassed.

Every one who keeps poultry, should raise a supply for feeding chickens, nothing can be better. I send out only EXTRA SELECTED seed.

Pkt. 10 cts. 3 for 25 cts.

Do Not Overlook the following good things because they are not illustrated and described. (It was only for want of room.) Market Gardener's Beet, Evergreen Sweet Corn, Golden Butter Pole Bean, Extra Early Pole Lima, Improved Hubbard Squash, Improved Egg Plant, Pickling Tomatoes, Ruby King Pepper, White Egg Turnip, etc.; and the lovely flowers also—Astors, Pinks, Phlox, Everlastings, Cockscomb, Jap. Morning Glories, Nasturtiums, Verbenas, Zinnias, etc. None should be overlooked. My superb mixtures, and gorgeous colors, I am sure cannot be duplicated in America. It pays in more ways than one to raise beautiful flowers.

Flowers are God's Jewels for Earth's Ornament.

From Miss Mary Nesbit, Pa. I had the loveliest of flower beds from your seed, and lots of people walked two miles to get a bouquet. Many city boarders came and purchased flowers. The Sweet Peas, Sweet Williams, and Verbenas were especially beautiful. I cannot thank you enough for the extras. My Aunt said "I have seen people get extras, but I never saw the like of this man before."

Fine Printing.

One reason why I can give such remarkable bargains in seeds is that I do all my own printing, manufacturing, etc., thus saving enormous expences.

This Department is a business by itself; and any of my friends who desire printing done of extra quality, in plain or fancy type, at surprising low figures; should send for my Price List of Job Printing.

No one can afford to be without good printed Note Heads and Envelopes; they look so much better, and save time and mistakes.

Show this to your friend.

I love flowers: don't you? if not, your wife does—order some for her, she deserves them. I am always glad to have customers show seeds to friends, and TELL THEM about my bargains. Please do not forget to send me a few GOOD names—both at your own and neighboring postoffices that I may send them my catalog.

I am always glad to have customers show seeds to friends, and TELL THEM about my bargains. Please do not forget to send me a few GOOD names—both at your own and neighboring postoffices that I may send them my catalog.

DO YOU LOVE FLOWERS? Remember my Floral Beauties when you order. I know my seeds are unsurpassed. My Customers say that finer flowers are grown from my seeds, than from some dealers costing three times as much. A home is much more attractive when surrounded with beautiful flowers, a small sum invested will do it.

HENDERSON'S NEW BUSH LIMA BEAN.

Think of raising Limas without poles! They grow 18 inches high, in a compact bush form, and produce enormous crops of delicious Lima Beans; (a single plant has produced 270 pods.) The beans are the size of the Steva or small Lima, and of delicious quality. It is two weeks earlier than the common Lima.

Pkt. 10c. 3 for 25 cents.

IGNOTUM TOMATO.

All should plant the new Ignotum Tomato. A "priceless paragon" in the Tomato line; the earliest, most solid and valuable large Tomato ever introduced. It will wipe out fifty old sorts at a sweep. Why grow a poor sort when you can have such a variety as this? My stock seed came from Fountainhead, (Cornell Agricultural College.) Seeds are few in the fruits, and necessarily expensive. Pkt. 10cts.

Do You Love Pansies.

I know you do, for they are the loveliest flower that grows. I offer an incomparable collection. No one should miss it.

Read this from Mr. H. A. McQuiston, PANST SPECIALIST OF FAIR HAVEN, OHIO.

Mr. A. T. Cook. Dear Sir:—For many years I have made a specialty of growing choice pansy plants—have tried many best varieties of leading seedsmen, and can truly say yours far surpass them all in vigor of plants, size and number of blossoms, and great diversity of colors. I recently took a basket full to our Minister's Jubilee, and you certainly would ask more than 20 cts. per packet if you could have heard the words of praise and exclamations of wonder and delight from those present such as "Oh how lovely!"—"The prettiest pansies I ever saw!"—"I did not know they EVER grew so large!"—"Where do you get the seed—etc., etc." "I have been your customer for 20 years and have always been pleased with your seeds and the many "extras."

EXTRA EARLY PURPLE TOP MILAN TURNIP

The earliest in cultivation. It is fully one week earlier than any other sort and of superior quality. The bulb is flat, medium size, smooth, with a bright purple top; leaves few. The pure white flesh is of the choicest quality, hard, solid, and fine grained. A good keeper.

Pkt. 10 cts.

GOLDEN TANKARD MANGEL-WURTZEL BEET

This is decidedly the finest mangel in cultivation; the flesh rich golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard has quickly taken the lead of other varieties. It contains a large percentage of sugar and is much relished by milch cows and sheep. It is one of the best of keepers. Farmers should give root crops more attention. The wonderful results are plainly seen in the health and condition of the animals, and in the increased yield of milk and butter in cows. Six pounds of seed will plant 1 acre, and the yield should be from 1500 to 2000 bushels.

Packet 5 cents.

WHITE VELVET OKRA.

Why not try Okra this year? You will like it especially if you try this splendid new variety. It is very early, distinct, and of attractive white velvet appearance. Of superior flavor and tenderness. The young pods are nice for soups, stews, etc., and also much liked when pickled. The pods are extra large, and very abundant.

Packet, 5 cents.

NEW TREE TOMATO.

WHITE VELVET OKRA

I think this more nearly resembles a "tree" than any other. It stands up like a tree, bears abundantly, fruit medium size, smooth, bright red color, and fine flavor. A valuable and curious acquisition—very ornamental and useful.

Packet 10 cents; 3 for 25 cents.

"THE RED BIRD TOMATO is a wonder. I had ripe Red Birds TWO WEEKS before any one else, and they bore all through the season, and still had a heavy crop on them when frost came in November. I cannot tell of all the good things I received of you." H. A. McQuiston, Ohio.

Vegetable and Flower Seeds; Fruit Plants Etc.

EXPERIENCE gained in twenty-five years of practical gardening and seed growing qualifies me to make the VERY BEST selections. This is far better than a long and bewildering list, containing so many poor sorts, many not even worth planting.

I KNOW what seeds are wanted by the most skillful planters and I have them. I offer everything essential for an up-to-date, profitable garden. My seeds have made thousands of friends. Send me an order, no matter how small, and then you will receive my Catalog next year without writing for it.

Be sure and keep a copy of your order. Order Sheet is in the back of Catalog. Write plainly with ink.

Great Discounts and Premiums on Seeds and Everything Offered.

It takes but little more time and trouble to pack up and send a LARGE order than a small one; postage and all expenses are also much less in proportion. For this reason, and to encourage Club-Agents to help me extend my trade, I make the following extremely **Liberal Discounts and Premium Offers.**

DISCOUNTS ON EVERYTHING I OFFER.

USEFUL PREMIUMS GIVEN AWAY,

(IF PREFERRED IN PLACE OF ABOVE DISCOUNTS.)

Premiums for a \$1.00 order.

For \$1.00 I will send you ALL the following fully prepaid, and guarantee safe arrival and entire satisfaction.

All who send me their orders are my friends, and I mean to treat them as such. Friends, YOU have my bottom prices here. No one has—or can get better terms. I offer no seeds in bulk, as my regular packets are so large it would be little object. Directions for planting, etc., is on every packet. Extras—a liberal number added free. Don't ask for tobacco seed. I do not believe it right to grow the vile stuff, to sell, or use it. My seeds are noted for extreme earliness and uniform good types. Please order early. By printing a small Catalog I give you far better bargains in seeds, premiums, and discounts. My packets are much larger than City Seedsmen's; my discounts and premiums are incomparable.

SELECTED SEEDS IN PACKETS ONLY.

I offer my high-grade, selected seeds in packets only. None in bulk. My packets are so large it would be little object. If you desire a quantity of any one variety, order 10 or 20 packets or more, which with the discounts or premiums will give you a better bargain than ever. I do not grow or sell the cheap stock for coarse planters of 25 or 50 acres or more, but rather offer selected seeds especially for private planters and select gardeners who desire ONLY THE VERY BEST.

My packets have always been large, but never before as large as now—being double the size many Seedsmen put up. I am positive that never before has so much intrinsic value been given for the price, and never before have club-agents had so easy a way to earn useful premiums, or liberal "pin-money."

Remember I am working for your best interest in giving the above and following premiums. Do I not deserve a kindly mention to your friends?

For a \$6.00 Order

I give free the lovely Ladies Solid Silver Watch described elsewhere. Also extras.

For a \$12.00 Order

I give free a Solid 14K. Gold Filled Watch, ladies or gents size, hunting case, elegantly engraved, stem-wind and set, 7 jewels.

For a \$30.00 Order

All seeds and premiums delivered prepaid, and satisfaction guaranteed.

GILT EDGE FLOWER SEEDS—ALL PACKETS DOUBLE SIZE.

SPECIAL TO LADIES, Club Raisers and Everybody. My Flower Seeds packets this year are double the size I ever made before. Indeed they are 4 TIMES AS LARGE as most Seedsmen put up. Don't let your friends waste their money on inferior seeds, or insignificant packets.

THIS LIST is the cream of the flower world, embracing the finest varieties in cultivation, and mostly of very easy culture. They are of my own growing, and from Specialists in France, Italy, Germany and U. S. The mixtures are choice strains from all these growers, an unequalled combination of brilliancy and beauty. My Flower Seeds are infinitely better than usually offered.

I could fill this book with testimonials from delighted patrons. All are guaranteed, same as my vegetable seeds, and warranted to be pure and true, superb quality—extra vitality.

Get up clubs and obtain a lovely Watch, fancy Dress Pattern, Gold Pen or Camera, all free for a little trouble. With my mammoth packets you can sweep the field. Begin to-day.

Early Thoroughbred Potato.

THE BEST IN THE WORLD.

 **Here is the Proof.** The following chemical analysis of the remarkable Thoroughbred Potatoes (by one of the highest authorities in the U. S.) shows WHY they are so FAR SUPERIOR to others for table use, also proving their hardness and wonderful yield, even under very unfavorable conditions.

Westfield, N. J., Feb. 22nd, 1900.

Mr. A. T. Cook.

My Dear Sir:—I want to say that the potatoes with which I obtained such notable results last season were the Early Thoroughbred obtained from you. I could not obtain like satisfactory results with any other potatoes. In fact, had I not had yours, I might as well have given up the experiment.

I asked myself with astonishment, as soon as I began to dig—"what CAN be the reason?" Side by side with the rows of other potatoes, highly fertilized with stable

manure, sulphate and muriate of potash, and other fertilizers, your rows grew without a particle of fertilizer. When the Thoroughbreds were dug, their yield led by 28 per cent over the others.

Here is the analysis of the Thoroughbred in comparison with the ordinary composition of the potato tuber:

	ORDINARY.	THOROUGHBREDS.
Water.	75	70
Nitrogenous matter,	2.1	0.9
Salts,	0.7	0.8
Fat,	0.2	0.2
Sugar,	3.2	4.9
Starch,	18.8	21

Other potatoes grown without fertilizer, amounted to almost nothing (30 per cent of a crop.) I wonder though, what the crop of yours would have been had I been prodigal with the manure. Sincerely Yours,

WILLARD H. MORSE, M. D., F. B. S. Sc.

Consulting Chemist and Therapeutist, Am. Director of the Bureau of Materia Medica. Fellow of Society of Science (London.)

The greatest novelty of recent years. One hundred varieties and colors. NEW BANANA MUSK-MELON.

This new variety originated with one of our best growers in South Jersey, and is pronounced by him the most profitable variety he has ever grown. He realized an average of forty cents each for his entire crop, as they were eagerly sought after in the Philadelphia markets, on account of their great oddity of shape and appearance. They grow from 20 inches to 2 feet long, are very productive, with deep yellow flesh, by many preferred to any other variety, and a great curiosity.

Pkt. 5 cts. 6 for 25 cts.

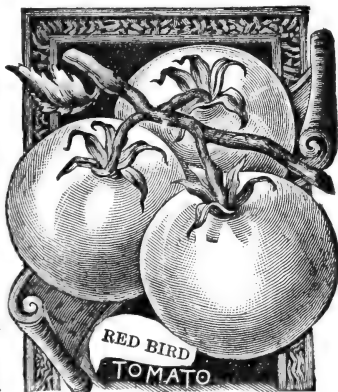

EARLY WINNIGSTADT.

A well known and very popular variety, heads large, decidedly conical, remarkably solid and hard, even in summer. This is a sure header, a good shipper, and suffers less from the cabbage worm than any other sort, valuable for both summer or winter use. Market gardeners and all others desiring a choice strain of this desirable cabbage should try my selected seed.

Pkt. 5 cts.

New Red Bird Tomato.

This new variety has never been introduced. It is one of the earliest and most productive ever seen. It is of good size for such an early variety. It sets freely, 3 to 6 to a bunch, handsome, uniform, bright red fruits, of very pleasant flavor. It is a very vigorous and strong grower, fruit about 3 inches in diameter, smooth as an apple, and of very superior quality. Its productiveness is really wonderful; this with its extraordinary earliness will make it a joy to the grower's heart. I am proud to introduce a tomato of so great value. Every home and market gardener should plant it.

Geo. B. More, Grand Gorge, N. Y. writes:—I sold over \$100.00 worth from my expenditure of \$2.65 with you last year. Your seeds are the best I can procure.
Mrs. H. A. Warner, Buena Vista, Wis. writes:—Your seeds are the VERY BEST we ever tried, and your packets are the fullest. We thank you very much and will do all we can to advertise your seeds.

Packet 10 cents.

I will get up a much larger club next year. Papa is much pleased with his seeds. J. Lent, Hopewell, N. Y.

Improv'd Purple Top Yellow Rutabaga.

THE GRANDEST VARIETY IN CULTIVATION.

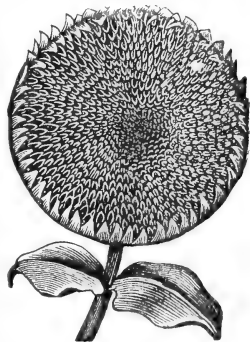

This variety cannot be too highly recommended and no sort will produce such handsomely formed roots, or greater yield. It is extra fine quality very solid, of a beautiful orange color, with a handsome purple top; it is the result of many years of careful selection. Pkt. 5 cts.

SUNFLOWERS.—GIANT VARIETIES.

This packet contains ALL the LARGEST AND BEST varieties:—Black Giant, Hybrid, Mammoth Russian, Jumbo, and Arctic:—selected seed, grown separate and carefully mixed. ALL REAL PRIZETAKERS. Heads measure from 12 to 22 inches in diameter, loaded with seed, which is excellent food for horses, a small quantity fed daily, keeping them sleek, glossy and fat. It is the VERY BEST EGG-PRODUCING FOOD known for poultry: they eat it greedily, fatten upon it, and it gives them a bright and lustrous plumage.

Large packet 10 cents; 3 for 25 cents.

Pop Corn Growing.

Of course the Boys and Girls must have pop-corn. They like it so well, it is so healthful, and they get such an amount of fun out of it during the long winter evenings that no family should neglect raising all that may be wanted.

My varieties are so easily grown and produces such immense crops make them VERY PROFITABLE to grow for market. It always brings good prices. This is well worth looking after by boys as well as older people. Try a large patch this year and report results.

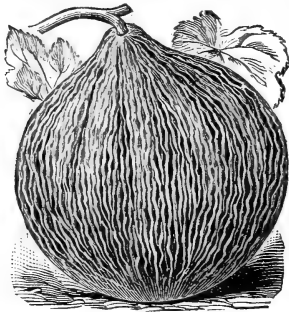

S. G. CAMPBELL Tappan Ohio. writes:—Last Spring I got three packets of Pop Corn from you, and I raised 3 1/2 bushels. sold 2 1/2 bushels for \$3.75 have 1/2 bu. to be yet, and enough left for winter.

I PLANT POP CORN.

New Winter Pineapple Muskmelon.

The Winter Pineapple differs from all other muskmelons in shape and appearance of the fruit and its wonderful keeping qualities. The melons weigh from 8 to 12 lbs. each. It is a most valuable novelty. These

splendid melons do not ripen on the vines like other muskmelons, but have to be picked in a green state, before frost, lain away in a cool, dry place where they will keep sound and sweet for several mos. When wanted for use bring them in a warm room, where they will ripen in a few days and be ready to eat.

The flesh is unusually thick, solid, and melting; a light green color and has the most delightful flavor im-

aginable, being rich, spicy, and delicious, with an agreeable pineapple taste.

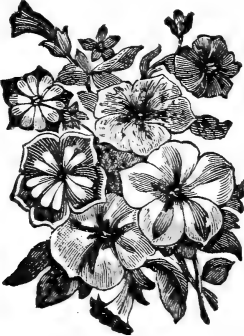

The Artist, (Mr. Blanc, of Phila.) who has made engravings of, and tasted nearly all the new melons introduced in the past ten years, says "Winter Pineapple is decidedly the finest flavored muskmelon I have ever eaten."

Large Packet 10 cts., 3 for 25 cts.

Everblooming Petunias.

 ALSO AN ELEGANT POT PLANT.

I desire to call attention to these entrancingly lovely flowers. They are a superb mixture of wondrous beauty—over 40 varieties. They comprise an endless assortment of colors, shades, and markings. The Petunia is the "Peoples Flower." They will bloom in a month or so after planting, and will continue to produce a perfect cloud of brilliant blossoms until hard frost. No one who loves flowers should fail to plant them. Pkt. 10c. 3 for 25c.

Mr. A. T. Cook—Your Petunias were a perfect delight all the summer long. The blossoms were immense, and of the most beautiful tints. In the fall they were taken into the house, and they have bloomed continuously all winter. Mrs. C. C. ALFORD, Mass.

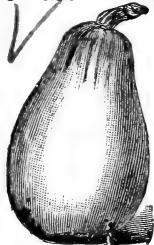

FLOWERS.

"God might have made the earth bring Enough for great and small, [forth The oak-tree and the cedar-tree, Without a flower at all.

He might have made enough, enough For every want of ours, For luxury, medicine, and toil, And yet have made no flowers.

Our outward life requires them not, Then wherefore had they birth? To minister delight to man, To beautify the earth!

To comfort man—to whisper hope When'er his faith is dim, For He who careth for the flowers Will care much more for him!

Same price as Cuthbert.

CUMBERLAND. A novelty worth having—fruit simply enormous in size—far surpassing any other sort. They resemble blackberries in size. The bush is unusually healthy and hardy, with very stout canes to support their wondrous loads of fruit. The fruit is as beautiful and good, as it is large. Prof. Taft and other

experts consider it of the greatest value. It is one of the rare things of extraordinary merit that appear at rare intervals. Large growers report a yield of two or three times as much fruit per acre as any other sort. Do not fail to plant the Cumberland; you can easily sell enough plants from it to pay the cost of a plantation 20 times over. Strong Plants 20 cts. each, 5 for 75 cts. 25 for \$3.50. [Extra large Plants not prepaid—per 100 \$7.00 net.]

CHOICE APPLES.

Cream of 100 Varieties.

The apple is the King of fruits, of greater value and profit than any other. Ten acres of orchard will often bring more income than all the rest of a large farm. Once planted they will grow and produce abundantly for a generation. I offer a select list of the very best, but can supply others at same prices if desired.

THE BISMARCK APPLE. The greatest novelty in recent years. The most wonderful of all fruits. Introduced from New Zealand, and has been thoroughly tested in every part of the United States and Canada, and far surpasses all expectations. The fruit is a veritable giant in size, yellow, sometimes with a

red cheek; flavor very pleasant, quality tender, sub-acid. Its cropping qualities are gigantic. The Bismarck will produce a fair sized crop of large, luscious apples IN TWO YEARS. Even the first year many plants have fruited. All reports confirm its extraordinary value, and pronounce it an astonishing revelation among fruits. Altho so hardy it succeeds perfectly in Canada and Russia, it is the one apple suited to hot climates and bears abundant crops even in the southern states where others fail. Owing to its beautiful appearance, excellent quality, ironclad hardiness,

Mammoth White Pekin Ducks.

... IMPERIAL STRAIN. ...

These monster ducks are the largest of all the breeds. They are best for market, best for feathers, and the most prolific layers. No variety in existence can compare with them. Cut was engraved from a photograph.

They have orange legs, yellow bills, and creamy white feathers. They can not fly or climb fences any more than a mud-turtle. Their eggs hatch well, ducklings are thrifty, extremely hardy and mature rapidly. They require no more water to swim in than chickens and are ready to market before other fowls are half grown.

These superb, handsome ducks are

Famous Money-Makers.

Many substantial fortunes have been made raising them for market. They thrive well even when massed in large numbers. Mr. Morgan of Warren Co. Va., raises 40,000 every year; he sells them at 15 to 40 cts. per lb. He commenced the Duck Business simply for fun—but found it so profitable that he has dropped everything else.

Safe Arrival Guaranteed.

Don't miss the chance to get this large, superior, rugged strain—bred up for business. There is always a ready market, and you can sell stock and eggs to your friends at fancy prices.

Free for All.

My Extras are ALWAYS added free to orders, and are IN ADDITION to all other premiums and discounts.

Every Order—Large or Small gets some; not occasionally one as some seedsmen do—but a good lot. A dollar order will have not less than 5 to 8 free packets—larger orders many more. These choice "extras" are interesting—novelties and specialties of great value. Do not miss them, but make your orders as large as possible, for the larger the order—the more extras you receive.

These Free Gifts

are my best advertisements. My customers are so delighted with their bargains they tell their friends, and hand out circulars, for which I am truly grateful. No one can more truly say "I am advertised by my loving friends." It is my choice to give all the benefit to my customers.

My discounts, premiums and clubbing terms, are far better than ever before, and eclipses anything ever offered by any seedsman. I give MY CUSTOMERS what others give the Newspapers for Advertising. If you approve of this plan I especially request that you show my offers to your friends.

BE SURE AND READ EVERY WORD.

VALUABLE SEEDS GIVEN AWAY.

Never before have I put up so many valuable NEW SEEDS free for trial, and never before have my customers received as many as will be added to their orders this season. Those sending small orders will receive several packets free, and larger orders will be treated with corresponding liberality. Order early and secure these treasures, the supply of some may be exhausted later. My customers tell me they don't see how I can give so many extras.

A GREAT FAVOR.

If you will promise to hand out a few of my catalogs and circulars (to persons interested,) I will pick them with your order, and also send you something VERY CHOICE in seeds for this favor, that will more than pay you for your kindness.

If in addition you will write plainly on another sheet of paper the names and addresses of a few friends and Club Agents (especially at other Post-offices) I will mail them my catalog, and remember you. It costs money to advertise by any method, and in this way you get the benefit—and not the newspapers. I am always glad to have customers show my seeds to friends and tell them how liberal I have been in filling their orders.

TO CLUB AGENTS AND LARGE BUYERS.

Be sure and read my liberal discounts offered on pages 2 and 12. I am positive they are the VERY BEST offered by any reliable Seedsman in the United States. Here is a grand chance to make money. Begin to day and get up a club and keep the difference between the retail and clubbing price, and you will be certain to make wages that will surprise and gratify you.

If however this does not interest you please show it to some of your club-raising friends, and you may do both of us a favor.

LAST BUT NOT LEAST.

I much desire that customers remit by Money Order—when they can (instead of postage stamps,) or get paper currency, or silver and wrap well and have your Postmaster register your letter. Remember I will accept stamps at all times but prefer you send by above methods when convenient. At all events send me your orders and do the best you can, and I will promise you GOOD seeds and GOOD measure. Your money will not go to pay for painted catalogs costly advertising or foolish "prizes" that not one in ten thousand ever sees.

With many thanks for past orders, and wishing you a happy prosperous season, I am,
Very Sincerely Yours, A. T. COOK.

SELECTED EGGS FOR HATCHING.

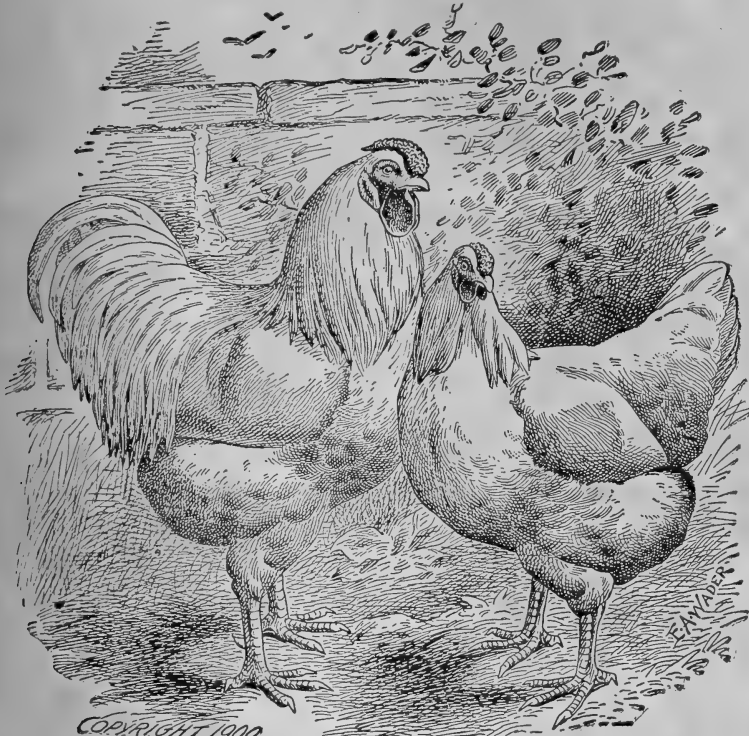

WHITE WYANDOTTES EXCLUSIVELY.

The popularity of this beautiful new breed already extends over the entire poultry world. No other breed the past season has carried away as many first prizes. Whether you want them for market, for show or for eggs, they clearly lead them all. Nothing can be handsomer than a flock of these large, gentle, snow-white birds. They have rose combs, bright yellow legs and skin, and dress much nicer than the other Wyandottes.

In Boston and all the leading cities they bring the very highest prices. Certainly none are better for the table. They weigh from 6 to 8 lbs. when fully matured. They make the earliest and finest broilers, and bring

thus saving all jar and insuring a good hatch, even though shipped thousands of miles.

SPECIAL PRICE. Selected White Wyandotte eggs, fresh and true, \$1.50 per sitting of 15. Two sittings for \$3.00. Price includes Premiums and extras as elsewhere offered. If no premium is desired, I will send 3 sittings—(either hen or duck eggs—or part of each) for only \$3.00; 6 sittings for \$6.00, etc. Eggs are sent by Express—not prepaid. Order early, and be sure and name your Express Office, County and State. No birds sold—only eggs. This is far the cheap way to get new stock.

extraprices. As to laying qualities—the season through (even in winter) no breed exists that can excel them. They are easy keepers, good sitters and mothers; the chicks are strong and hardy, and mature rapidly. My stock is PURE and TRUE, and HAVE HAD FREE RANGE on a 70 acre Poultry Farm. Are rugged and strong, and incomparably better than those bred in confinement. No product of the farm is half as profitable (for the time spent) as a well kept flock of high bred fowls. They are the farmer's best friend—

REAL MONEY-MAKERS.

No one can AFFORD to keep poor, indifferent, run out fowls. The loss is enormous. It is a serious and costly mistake not to change and get the benefit of the best new blood. You should surely give this variety a trial. I pack eggs with unusual care, lightly and securely—first in strong partitioned paper boxes, packing these in new baskets surrounded with elastic shavings,

It Pays to Keep

Pure Bred Stock.

"My pure bloods laid four times as many eggs as the same number of mixed hens with free range. The treatment and feed was exactly the same. Is not this an eye opener? I cannot afford to bother longer with loofer hens."

Emma Clearwater, Ind.

Money! Money!

Nothing brings the ready money to the home like the product of the pure bred hen. Eggs are cash at all times, and so are well fed fowls or young chickens. The cash thus obtained enables one to secure many nice things for their homes that really make life worth living. Don't be satisfied with old run out mixed stock for you are losing money every day.

An Egg a Week

will pay the keep of a hen—the all rest is profit. It pays best to keep the best. Order the White Wyandotte eggs now, [and Pekin Dux,]

READ THESE KIND LETTERS.

John Grandy, Pembina-Co., N. Dak. writes:—It affords me great pleasure to report so favorably of the eggs sent me last spring. The result was 39 birds out of 48 eggs received. They did well, and both chicken and ducks carried away FIRST PRIZES at our fair this fall. The Potato Eyes all grew and yielded prodigiously. I was more than pleased with all your seeds.

S. Rockefeller, N. Y. writes:—The White Wyandotte eggs I got of you hatched well, the chicks were vigorous and hardy, matured rapidly and lay splendidly.

D. L. Parlman, Kingston, N. Y. writes:—I have just taken 154 fine chicks out of the incubator—all hatched from the 175 White Wyandotte eggs I purchased of you. This is the best hatch I ever had. I can unhesitatingly recommend your eggs to any one wishing a pure strain.

Best In The World.

THE NOTED expert and breeder—Mr. A. Duston, of Mass., says:—The best and most popular breed to-day, the fanciers delight and the farmers friend is the White Wyandotte. They have proved to be the best all-around birds of the 5 leading popular breeds I have tried.

All Eggs Securely Packed.

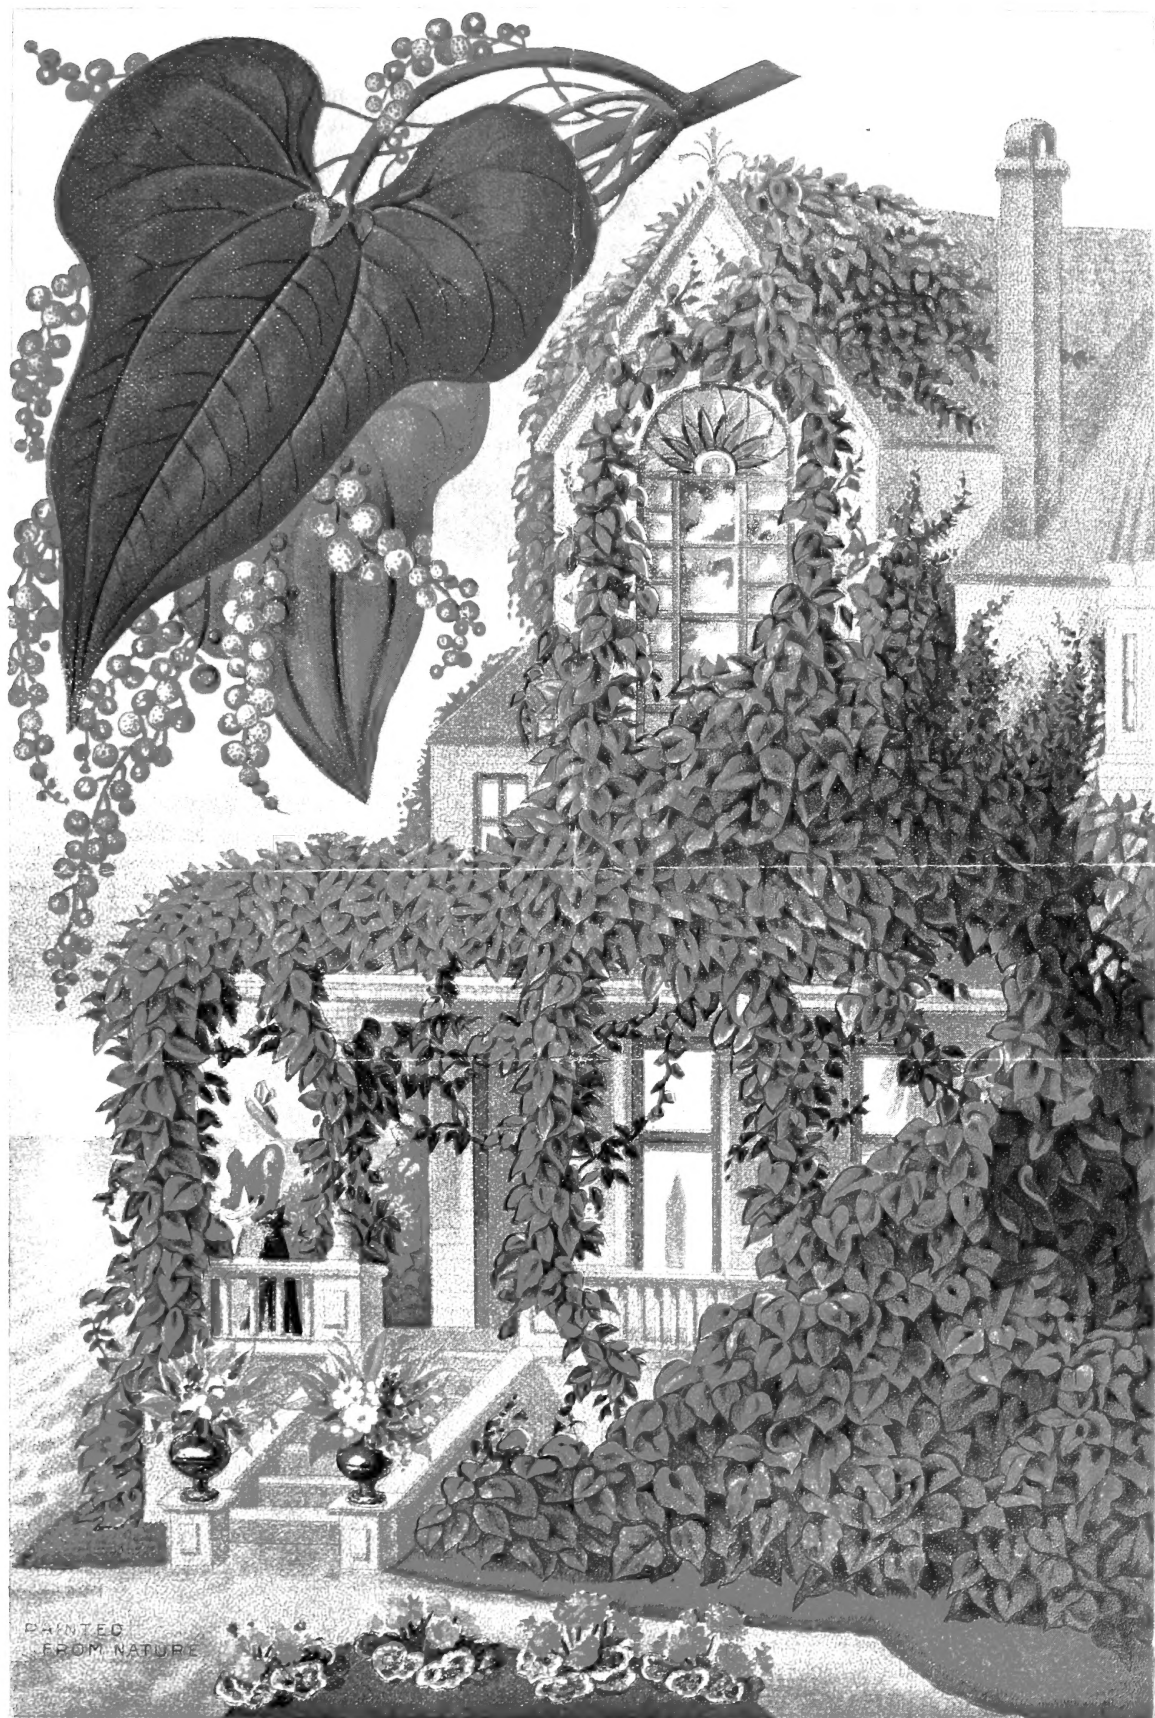

Pure Breeds Pay Best.

PURE BRED poultry of to-day lay vastly more eggs, attain greater size, young stock matures faster and are a better tablefowl than common mixed run out stock. Why not order some White Wyandotte and Pekin Duck eggs to-day? It will pay.

Early Thoroughbred Potato.

(Be sure and read the testimonials in next column—especially Mr. Terry's.)

A new potato, and the best one yet. It would seem that perfection was at last attained. Very early, extra fine-flavored, and without doubt the most tremendous cropper of all. The flesh is clear white, and when baked or boiled breaks open like a snowball—white, dry, and floury. Every planter should at least have the VERY BEST for his own table, and here it is.

The Thoroughbred besides being so early, is very handsome, (see cut from a photograph of an average specimen), a hardy, strong, and vigorous grower, of superb keeping, and table qualities, and an enormous yield. In fact all who have tried it consider it

A Perfect Potato in Every Respect.

With extra soil and cultivation it can readily be made to produce 500 bushels or more per acre. New varieties invariably yield the best, and millions of dollars are annually lost by planting old, run-out sorts. I thank good fortune that I have such a valuable acquisition to offer, and every potato grower should be thankful to be able to obtain it on such favorable terms. Mr. Terry was offered \$10.00 a piece for single tubers, and every purchaser of my seed should make an enormous profit on the investment. My seed is genuine—direct from Headquarters, and every tuber I offer is PURE and TRUE. Beware of spurious seed as much of it will be offered by unscrupulous parties. If you want the greatest cropper, the hardiest, absolutely the surest money-maker, and without question the very best table potato ever produced, then you want this greatest of all—

SPECIAL. Above price includes premiums as offered elsewhere. If no premium is wanted I will send 150 large eyes—or 30 whole potatoes—for each \$1.00 remitted.

I have received the most favorable reports from all sections from sending potato eyes. It is much the best and cheapest way to obtain new varieties. I cut the eyes from LARGE potatoes, leaving a good big piece of potato with each eye, one eye being sufficient for a large hill. I send them carefully boxed, and prepaid, with explicit directions for planting and cultivating to secure an EXTRA LARGE yield.

All eyes sent when desired, and warranted to reach

you safely and in good condition for growing.

If preferred I will send 20 whole potatoes for \$1.00, 40 for \$2.00, 60 for \$3.00, etc., prepaid.

WHAT THE MOST NOTED GROWERS SAY.

D. D. Reeves, Genesee, Idaho, says "From \$1.00 worth of Thoroughbred Potatoes obtained from you I raised over 550 lbs. (over 9 bushels) of fine tubers. Your seeds have always given satisfaction."

W. E. Thompson, of Mo., writes:—We dug 119 lbs. of Early Thoroughbred—all grown from one pound planted; one weighed 29 ozs.

Harry N. Hammond, of Mich., the largest grower of seed potatoes in the world says "The new Thoroughbred will certainly MAKE MORE MONEY for those who handle it than any other variety."

From the "Practical Farmer," written by H. F. Smith, the noted potato grower:—I planted the new Thoroughbred as a test side by side with the best sorts I had—34 different varieties; and they yielded MORE THAN DOUBLE all the rest, or at the rate of

733 BUSHELS PER ACRE.

They had just the same care and cultivation as given the whole field. I am sure they will make everywhere a wonderful record.

W. J. Manley, Mich., writes:—On 10 rows each 35 rods long, I dug 150 bushel boxes heaped full, of Early Thoroughbreds. I never saw the like before, and everyone who sees them say the same. Their quality is EXCELLENT. They received only ordinary cultivation—and no fertilizer was used.

From the PRACTICAL FARMER, written by T. B. Terry—the most noted—the most successful—and the man who has made the most money growing potatoes of any in America. He says, "Blood will tell." Yes it will, no matter whether in stock or seed. I planted two tubers weighing one-half pound, of the Early Thoroughbred with a number of other varieties. To make the trial more complete I got two tubers of Early Rose of same size from an old farmers cellar, and planted them by the side of the others. All were planted on average ground and worked precisely as the rest of our field crop. No fertilizer of any sort used.

I was never so surprised in all my life in potato culture, as when I dug those Thoroughbreds. In every hill there were great, large, beautiful potatoes such as I had never seen since the Early Rose first came around, 25 years ago. They yielded just THREE TIMES as much as those from the farmers cellar. The vigor and vitality of the new seedling enables it under the same conditions to grow

THREE TIMES AS MANY BUSHELS.

There is a great lesson taught here. Thousands of farmers are using old run-out seed and growing a crop at no profit. You will make a great mistake if you don't change seed occasionally and get the benefit of new blood.

SILVER WATCH GIVEN AWAY.

I will give a beautiful watch, solid silver, handsomely engraved, Ladies or Gents size, to the person who will grow the largest number of pounds of potatoes from \$1.00 worth of seed purchased of me this season, (either eyes or whole potatoes) \$5.00 worth of seed is the largest yield, \$5.00 for third largest, and \$2.00 for fourth. All reports to be sent in by Nov. 1st.

Try several plats, \$1.00 worth in each—some of eyes, and some of whole tubers (which you can cut as small as you wish) and you will have a crop to be proud of, and worth many times the small cost. Remember I send valuable directions to enable you to secure an ENORMOUS YIELD.

Friends. I remember your kindness in the past, and will look for your orders soon.

Yours, with best wishes always,
